LINKS TO HANSEN/SALA FAMILY HISTORY FOLDERS

Compiled By Evelyn Jeanne Hansen (Sala, Beaver, Harvey)
and son, Lawrence (Larry) Sala

This document links out to **folders** in the]Google MyDrive (for gmail account, Hansen.Sala.family@gmail.com). The intent is to get prople to the source folders for files they may need. By linking to folders, rahter than individual files within folders, file management and keeping this document updated is easier.

But at the end of this document, there is a list of videos (on YouTube and within other MyDrives) that *are* linked to directly.

As can be seen on the genealogical chart on the next page, the focus point of this effort is, Evelyn Jeanne Hansen (sitting on her grandfather's lap in the lower left of the photo below).

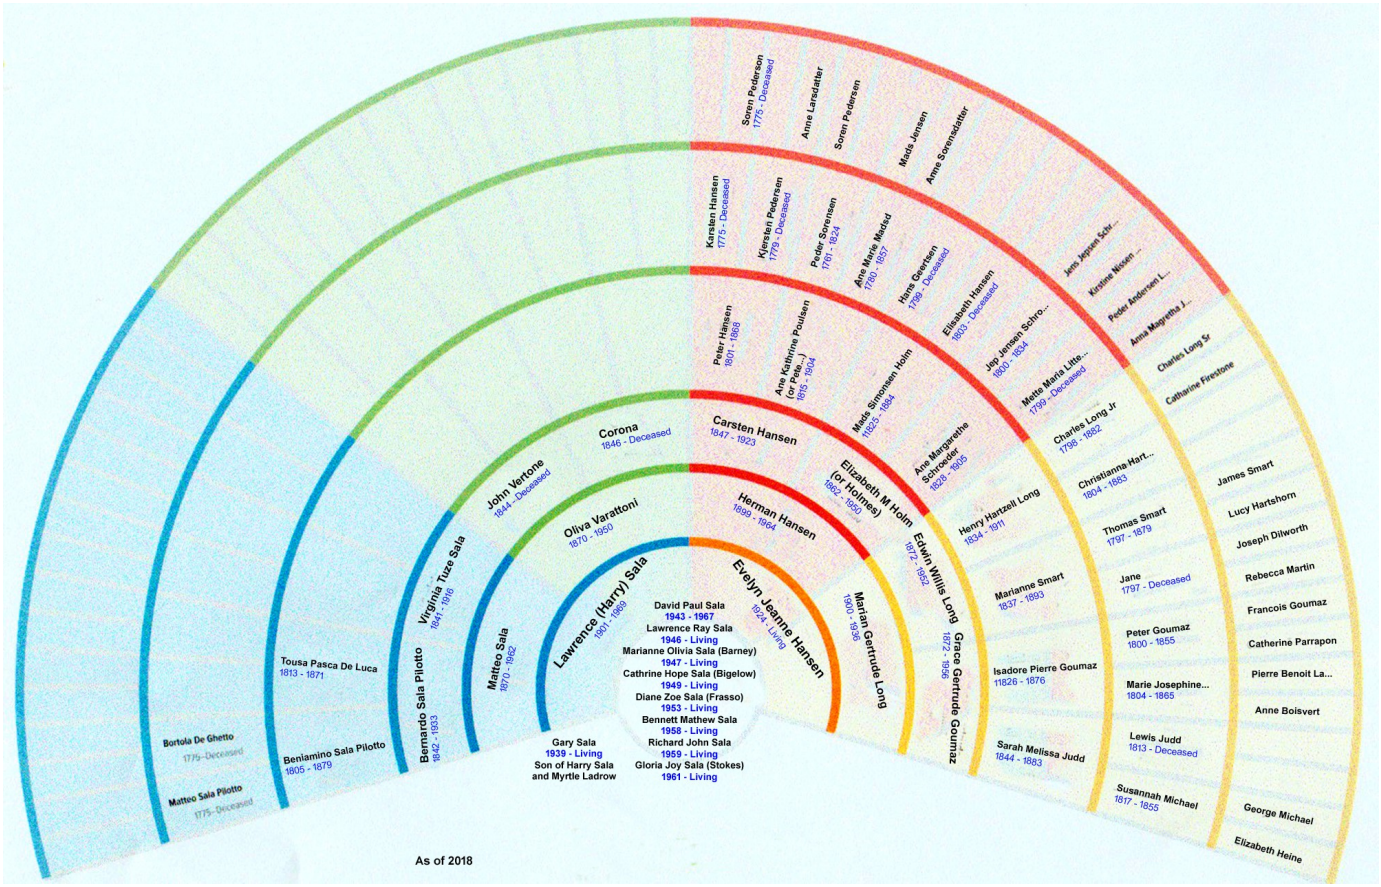
HANSEN AND SALA FAN CHART

The fan chart shows some of the genealogy of mostly the Hansen side of the family as it was compiled by Jeanne Hansen who had the photographs and documents for her side of the family. In addition to the names on the chart, there are other relatives (aunts, uncles, cousins, neices, nehews as well as some some, unrelated by blood, such as adopted children) in the different folders in this document. We've tried to make folder and file names full and accurate enough to allow you to properly place everything.



Ancestry Fan Chart (as of 2020)

PICTURES OF PEOPLE

Photographs of people in the related families. The photos extend from the earliest photographs available to those of the children of Jeanne Hansen and Harry Sala. The genealogical fan chart shows the direct, ancestral lineage. But, the photographs also include related families and individuals such as aunts, uncles, cousins, grand children and inlaws. While every effort was made to identify the relationships in the file names of the photos, they must be considered separately.

MEMORIALS

Memorials for those no longer with us are listed. These memorials are for the direct ancestry of Evelyn Jeanne Hansen (Sala/Beaver/Harvey) and her children. Most of the information is from the *Find a Grave* website and those links are to entries on that site. It's unlikely that anyone will continue to update this page so, only a few memorials are listed and are not associated with a particular family. Refer to the genealogical fan chart for the familial relationships.

LINKS TO MORE MyDRIVES

Additional Google *MyDrives* (what Google calls their internet coud drives) provide another 15 GB each of free storage for large files such as videos and large photos commonly taken with modern cell phones.

Links to files on those MyDrives are usually from sources like this Links to Folders document but, may also come crom other places that have access to "shareable links' to the files.

Login to the #2 *MyDrive* is the same password and as associated with Gmail Account:
hansen.sala.family.videos@gmail.com
And, that password is the same for all the Hansen/Sala family history sites.

Login to the #3 *MyDrive* is the same password and as associated with Gmail Account:
hansen.sala.family.drive3@gmail.com

Login to the #4 *MyDrive* will be (when assigned):
hansen.sala.family.drive4@gmail.com
And, the password will be the same as for all the Hansen/Sala family history sites.

You cannot go directly to the root folder of a MyDrive with a shareable link. So, click the following link graphics below which take you to a folder that contains a graphic file informing you that it's the desired MyDrive. Once there, you can go to the folders shown and begin finding things from there.

LINKS TO FAMILY VIDEOS
(ON YOUTUBE & OTHER MYDRIVES)

Links are to the associated YouTube channel (Hansen Sala Family History). Videos with sensitive information or living people (mostly) are "private" videos and can only be viewed if you are logged into the YouTube channel. If you are logged into the MyDrive, youo should be able to open the YouTube channel and view both "public" and "private" videos.

Videos on other MyDrives are larger video files that have been put on other Google MyDrives where more space is avaliable. There will be two links for each video. The first link is to the video itself and the second link is to the folder on the MyDrive containing the video. This will allow you to see related videosk.

NOTES ABOUT UPDATING THIS DOCUMENT

To update and modify this links to folders document, you must have the login information. Hopefully, your family has taken our advice and passed this along to you. But, even with the login informatlion, you may have trouble logging in as Google makes note of your location and if it doesn't recognize the location, sees you as a possible hacker or scammer. It will be up to you to work your way through this once “we” are gone.

The document is in PDF format which is very difficult to edit. But, the native .odt format file is available, one folder up in the tree; the “link source” folder. It is recommended that you edit in the .odt format and then save in both the .odt and .pdf formats (with the PDF then being uploaded here and the ODT file being uploaded to the link source folder. By keeping both files up to date, that will assist others who may edit this document in the future.

A template for this links documentg has been provided and you can download it from the link below and begin editing your own version of it for your own family:
